THE DIVING

Your safety is always the most important aspect of Solitude Lembeh Resort and at the forefront of all decision-making.

A fully equipped dive center is built to cater to all levels of divers or soon-to-be divers. The dive center and its staff provide the highest degree of safety standards that Solitude Liveaboards and Resorts is known for.

Courses are conducted on-site and in the surrounding calm, shallow and open water.

The compressor room is specially designed for the natural influx of fresh air, and the center uses only the best quality high-pressure air purifiers to ensure every dive is as safe and enjoyable as it should be.

The dive center also provides an Enriched Air Nitrox option and a spacious photography room to set up your camera, sockets, and adaptors for charging batteries, drying stations and large, freshwater tubs for rinsing cameras.

The Dive Team at Solitude is well-trained in First Aid and In-Water Rescue procedures, consistently attending refresher courses to keep their knowledge up to date. To ensure safety, all our dive boats are equipped with Emergency First Aid Kits, DAN Twin Jumbo D Oxygen kits and mobile phones. Additionally, we have two large (40L) Medical Oxygen tanks available at the dive centre for added support if needed. In case of emergencies, the nearest Decompression chamber is located in a 7 minutes drive to Bitung or Manado city, approximately 120 - 150 minutes away by car.

The dive center operates daily from 07:30 to 17:00, with the exception of night dives or Blackwater.

For our complimentary unguided shore/jetty dive, it is only available between 10:00 to 17:00 daily, and we strongly advise maintaining a reasonable surface interval between the last dive and the next dive for safety reasons.
